CHAPTER 14

Supplemental Dialogue for the Beginner Workbook

by Peter Mangiaracina

TEACHER

Hello! How can I help you today?

STUDENT

Hi, I'm new to this area and I'm trying to find my way around. Can you give me some directions?

TEACHER

Of course! Where are you trying to go?

STUDENT

I'm looking for a parking space near the shopping center. Which way should I turn?

TEACHER

You'll want to turn onto Main Street, and then take a right onto Center Avenue. The parking lot is on the right.

STUDENT

Got it. And if I miss the turn onto Main Street?

TEACHER

If you miss the turn, just keep going straight ahead until you get to the next intersection. Then, turn left and the shopping center will be on your left-hand side.

STUDENT

Okay, I think I understand. And what if the parking lot is full?

TEACHER

If the parking lot is full, there's a parking garage just a little bit further down the street. You'll need to go all the way down Center Avenue and keep going until you see the garage on your left-hand side.

STUDENT

Alright, I think I've got it. Thanks for the help!

TEACHER

No problem. Just remember to be careful when you're driving, and if you get lost, don't hesitate to ask for directions or stop driving and check your map. By the way, do you have a GPS on your phone?

STUDENT

Yes, I do. But I'm not really good at using it.

TEACHER

It's pretty simple, just type in the address of the shopping center and it will guide you to the parking lot.

STUDENT

I'm not sure I know how to do that.

TEACHER

No problem, let's do it together. First, go to your Maps app on your phone.

STUDENT

Okay, I'm there.

TEACHER

Great. Now, tap the search bar at the top of the screen and type in the address of the shopping center.

STUDENT

The address? I don't have that. I just know the name of the shopping center.

TEACHER

That's okay. Try typing in the name of the shopping center instead.

STUDENT

Okay. I found it. Now what?

TEACHER

Tap the Directions button and choose the mode of transportation you're using.

STUDENT

Okay, I chose Driving.

TEACHER

Perfect. Now, just follow the directions on the screen, and it will guide you all the way to the parking lot.

STUDENT

Wow, that's really cool. Thanks for showing me how to use it.

TEACHER

No problem. GPS is a really useful tool when you're trying to find your way around in a new place. Just remember to always be aware of your surroundings and drive safely.
